

NO GREENWASHING ALLOWED

They can't fool us!

DUTRA'S RECORD:

Dutra cannot be trusted to comply with the FEIR's 140 mitigations to keep us safe. And we can't afford to watch them. Their national record of violations, fines, and a Marin County Grand Jury investigation tell us that they are not a "good neighbor."

- **In Petaluma, Dutra's temporary asphalt batch plant operation was shut down by BAAQMD** for operating without a permit, and failure to use Best Available Control Technology.

—*Mayor Pam Torliatt, Chairman BAAQMD*

- **In Marin County Dutra's quarry and asphalt plant was the subject of a Grand Jury Investigation.** They built buildings without permits, operated in excess of their permitted volumes and hours, and created a noxious and noisy nuisance to the surrounding homes and school.

—<http://www.co.marin.ca.us/depts/GJ/main/cvgrjr/2000gj/ssrq/srrqrept.pdf>

- **In August 2006, Dutra was fined \$735,000 For Ocean Dumping Violations in protected waters** near the Farallones National Marine Sanctuary.

AND...

Asphalt recycling and production is a dirty, smelly, noisy, toxic industrial process, best located far from homes and schools. It will ruin the Shollenberger Park experience for 150,000 visitors a year who birdwatch, walk, and enjoy the wetlands and wildlife.

If Dutra's plant is built, Shollenberger Park will be off-limits to all vulnerable people: children, the elderly, and people with respiratory or cardiac conditions. Fine particulate matter in the air from Dutra's crushing of old asphalt and aggregate will adversely affect people with asthma and cardiac conditions.

The City of Petaluma has invested million of dollars in developing Shollenberger Park and the adjacent business park as a magnet for green businesses and eco-tourism. This is working and Petaluma is benefitting from these tax dollars. The asphalt plant will drive business away.

WHAT CAN WE DO

TO SAVE OUR BEAUTIFUL SHOLLENBERGER PARK AND OUR SUSTAINABLE AND GREEN FUTURE:

JOIN *Friends of Shollenberger Park and Clean Air* at special events, listed on our website and event flyers.

GO to our website: www.SaveShollenberger.com Find links to all documents and resources regarding the impact of the Dutra asphalt plant on your community and a listing of upcoming events.

PARTICIPATE in our on-line community on FACEBOOK under the name: "Save Shollenberger"

DONATE to preserve and protect clean air, Sonoma County's Gateway, and the wildlife and wetlands of Shollenberger Park. Donate online at www.SaveShollenberger.com or send your check made out to O.W.L. Foundation, 1390 North McDowell, Suite G306, Petaluma, CA 94954, add memo "Shollenberger Park". This is a 501(c) 3 non-profit organization so your donation is tax deductible. *Donations fund the legal action necessary to challenge Dutra's environmental impact report [EIR] and to stop the construction of the Dutra asphalt plant at Haystack Landing.*

SIGN the on-line petition: The supervisors will make final vote on the use permit and general plan amendments on March 24. If you signed the paper petition before, please go on-line and sign the new petition. Go to www.SaveShollenberger.com and click "sign our petition" located in the right margin.

VOLUNTEER to assist in fundraising efforts: E-mail Greg Reisinger, fundraising chair, friends of ShollenBerger park and clean air. Greg.Reisinger@sbcglobal.com

VISIT our headquarters next to the Tea Room Café at 322 Western Avenue.
